[Abu Obeida / Abdullah scratch]

- May God protect him –

The policies are not good for a guarantee of success, but bad policies of the investigator failed to ensure

.. Daut Eisenhower Commander in Chief of the Allied armies in World War II and the President of the United States for two consecutive terms a summary of the military and political experience, and that matters of this premise is constructed II: But bad policies to ensure investigator for failure, because it reflects the situation of Pakistan in both its military and civilian since the adoption of General Pervez Musharraf's decision to standing with the United States in its war on the so-called "terrorism" and even write these lines, Valenazer in the event of Pakistan's aware of the confusion experienced by the military establishment and its corollary institution of the Presidency in the government led by Zardari, the thief, and the depth of the abyss from which to plunge the country under the shadow of sixteen general rule in Rawalpindi, which lead the country into disintegration and fragmentation and that at best, if not swallowed up by its neighbor and arch-foe lurking for India to be appointed after the impact, and this statement and God alone hired.

A historical perspective:

Geographically Pakistan is today the largest part of the ancient civilization known as the civilization of the Indus Valley civilization, which had this before about 4500 BC and lasted for nearly 800 years, and then ceased to take turns ruling the settlement and then by different peoples, where the solution Aryan coming from Central Asia and settled in Punjab and other regions of India, and then subjected to rule over the Persians in the sixth century BC to become part of the Achaemenid Empire, then conquered by Alexander the Great, the Greek part of its queen, and soon it too much until it was conquered emperor Maori Chandrajupta, thus penalizing the ruling and subject many kingdoms and nations, including the State of Greek Bactria and built a large kingdom, then in its Bander Aliskathion from Afghanistan, then the Parthians coming from the east of the Caspian Sea, then defeated Alkohon coming from Central Asia and established the kingdom lasted for hundreds of years, and then underwent some of them of the Kingdom of Jbta , and then subjected the tribes to rule the Huns from Central Asia.

Islamic conquest:

Vanguards of the Islamic conquest began benefited the land of Sindh during the reign of Caliph Omar Bin Al Khattab may Allah be pleased with him and remained confined to the parties to the limited land of Sindh, the country of India did not take their share of the opening and spreading of Islam in its territory but in the era of the Umayyad dynasty, has declined Osman may Allah be pleased with him for Send Muslims to fear for their personnel in order to Hindi and breadth of the country beyond.

Pilgrims took the responsibility of the Umayyad conquest of the Sindh sent vast armies were able to open and Muhammad bin Qasim Thaqafi God's mercy to break the backbone of the armies led by King Dahir of Sindh Albarhami, and subjected the country to the rule of Islam, and soon people get into the religion of God during the reign of Caliph Omar bin Abdul Aziz God's mercy.

During the reign of Fatih Sultan Mahmoud Ghaznavi Allah's mercy completed the conquest of the West Indies and God humiliated the kings of India on his hands, and the conquests of the greatest conquests and his kingdom in the country of India one of the greatest kingdoms.

Then punish the country of India on the rule of kings, Afghans, Turks, Mongols, the last Muslims who cooperated with the British reign in the last campaign to repel the Portuguese India and the country's biggest sin at the time, where it paved the British to occupy the sub-continent Hindi and was in the early eighteenth century and have continued to rule England Even in 1947, where he was independence.

The idea that the Pakistani state:

Regardless of the real reasons and motives behind the idea that the Pakistani state, independent of country of India, has carried this state by encouraging British concealed the Muslim League party, which was founded in 1930 and led by Mohammed Ali Jinnah Qadiani (leader of the greatest), and after a bitter struggle with the Hindus, where he saw many of the Muslims of India inevitability of a separate homeland for India, for the lack of co-existence with Hindukp and opposed others, including Abul Kalam Azad, Abul Ala Mawdudi mercy of God, and triumphed in the direction of the call for secession, and soon announced that the Pakistani state, which means pure country and in the year 1947 and brought in Muhammad Ali Jinnah Qadiani (independence leader), who raised arms of the British and came to power in Pakistan.

Religion and its importance in the Pakistani state:

Launched the idea of establishing the Pakistani state from the perception of faith and the perspective of Islamic thought, it was the motive for the engine of this state is Islam, though its founder Ismaili secular liberal Muslims deceived the public fools, may Astkhalafth Britain shortly before its departure will end up like the rest of the rulers who ruled the land of the Muslims soon after the crusader armies them. Although Islam is innocent of this State, where he remained a drawing on paper, but it had a major role in the cohesion and unity of West Pakistan in spite of the disintegration of East Pakistan (Bangladesh) on, in support of an Indian monopoly West Pakistan governance and leadership of the army and the other which is known to Watch Streamer respect of Pakistan, this filter to occur in other regions of Pakistan, there is no reason why it now only military power that began to fade and decay.

And of the whole the common denominator of Pakistan is not one race, and are not the common language, but it is Islam that has been noticed for the deceased founder, when he said in a speech after independence: if you want this country to continue the common denominator of Islam must be the deployment of Arab and strengthen our ties with Arab countries, as The religion combines ethnic other language and so can not be because the language is different in between - ethnic groups of Pakistan.

What collection of different nationalities and races that are collectively known today Pakistan is Islam, and the generations that grew and grew, not Pakistan can not continue this cover, which guarantees its survival and continuity.

The relationship with India:

Since the independence of Pakistan, a conflict with a neighbor India, which have fought three wars with Pakistan's army was defeated in one way or another, the result of two of those wars, the separation of East Pakistan and India hold the largest part of Kashmir.

The general belief among Muslims in Pakistan that India did not rest "will recognize it by the decision of Pakistan to retrieve only the mother country India, which is not hidden statements of Indian politicians reflect this in all frankness, this Nehru, former prime minister says that India is the ultimate goal of a union between Pakistan and India and the meaning of this return Pakistan to the Hindu rule, but some went further than he has said Mohan Bhajuat head of the organization's parliamentary Hinduism: A large number of Muslims today were one day condemn Hinduism can return again to the fold of Hinduism. The fact that India says Pakistan is superior to the material, human and military, not only for Pakistan's nuclear deterrent - that is still the case that - to discourage them from swallowing, especially in light of these circumstances, where Pakistan divided on the Order does not warp something misguided in their policies, and also under weaken the Pashtun tribal periods of real Muslims throughout history in the subcontinent, Hindi and who Sadoha for hundreds of years.

Relationship with Afghanistan:

Relationship with the Afghans by rooted relationship that are present in the map of Pakistan, India and Pakistan Kings in many time periods of the country were Afghans, but who opened most of them and spread Islam in the boundaries came from that country, and in the present is near Afghanistan for Pakistan depth Strategic is without an easy prey to Hindus, and therefore weaken the Pashtun element in Afghanistan and the goal now is to weaken the Taliban to Pakistan, but, then, is the collapse of the Pakistani state, especially if we know that the Northern Alliance now controlling in Kabul, a Tajik national strategic ally of India and opponent of Pakistan fueled by a hatred of years, and confirmation of the existence of a declaration of the Indian and the strong relationship that bring the two sides of India and the Northern Alliance, India has built some military bases and airports on Afghan soil, and no doubt that this cooperation and coalition targets Pakistan one way or another, and here are aware of the size of the loss and the extent of the danger caused Pakistan the same when calculated non-alliance with the United States, and then work to bring down the Islamic Taliban regime in Kabul.

Survival factors and factors of the collapse in Pakistan:

The factors to survive and continue in Pakistan multinational limited to several factors including: Group I had pointed to a religious group that combines these nationalities into a single molding the fabric to form a national from Pakistan, a place of importance and irreplaceable if the wise men of this country to continue to Pakistan as a state.

The other factor is also important and it is the army the only force capable of maintaining the unity and cohesion of the Pakistani state, which is the only bulwark between them and the fragmentation and dispersion, if the weakness of this army the chances of disintegration and collapse on its way to the rest of Pakistan.

It is known that the young multi-ethnic remain as long as a strong coherent system of government is weakened and if the iron fist that things are going and lead the people, the species and the yard and break easily find its way to these countries, and history is full of examples of this, and that non-State based on the same nation that can be patient, even for a long time on the evils of bad governance, management is wise and serious consequences, because the mites of different races are not eating away at the bone robust to for a long time until God is bound to decay.

The third factor in survival is the relationship with the United States Pakistan artery, which supplies blood to survive, and this working group was not expressed, it is a casual alliance depended on the existence of the benefit of America in the fight against "terrorism", if the benefit was denied in the United States turned its back on Pakistan, this is the acceleration is not the dismantling of the state, as is planned in the minds of politicians, the White House, emphasized this is the American President when he said: Our friendship with Pakistan will continue until the time when our interests and the interests of Pakistan in common. This alliance is not a placebo-based existing with neighboring India's arch-enemy has, the former alliance with the collection of interest is based on the temporary subjugation of the will of the United States, the second alliance with India is a strategic alliance in the eyes of American politicians is based on mutual benefits, equality in dealing posed to India the strength of economic and human potentials, and this crystal clear in the fourth day, and by the remarks American politicians and pointed out that a simple comparison between the visit of the United States of the region, while the U.S. president in India a few days in Pakistan, against which spend a few hours throwing dust in the eyes.

Moreover, India is closer to the West, the pagan Christian-Muslim from Pakistan lubrication Bazzi hateful and threw themselves secular arms of the West to accept it, but it remains the people who live where the

Muslim people, when life must rise up one day.

The factors of the collapse in Pakistan, there are many, including:

Group I: the loss of spirit and solidarity of the Islamic religious requirement is based on the survival of Pakistan as a nation, has adopted the junta whether civilian or military policy of reckless in dealing with the sons of Islam in this Muslim country, demolishing the foolish policy cornerstone of the Whole of the components of this State, not which is Islam and that policy was the following:

- 1** - support for the American crusade to destroy the state of Islam in Afghanistan.
- 2** - the hunt for the jealous to this religion, and kill them and their families and the delivery of many of the crusaders.
- 3** - for the massacres committed horrendous crimes against the righteous of this country, for example, what happened in Lal Masjid (Red Mosque).
- 4** - Making the scene of Pakistan persists, the U.S. Army and touring, but opened in the private offices of the intelligence, companies have leased killings Black Water Circulating publish newly industrialized mass murder and in the markets of Peshawar and elsewhere.

To other established policies that led to a whole uncovering fact demonstrated by this state and appearance without falsification, and polishing and refurbishing, and Pant, each with a core of it is a fight against God and His Prophet and Muslims, and helpful to the infidels over the believers, so Haft spiritual survival factors of this State.

Group II: Anti-section stronger and real authority in the maintenance of Pakistan, namely, the Pashtun tribal proud, this afternoon, which is strong without him an easy prey to predators, Hindus, and history is witness to the What to the defense of Kashmir and the preservation of Pakistan, however, some of them are sons of the tribes , General Hamid had warned the bulk of the former head of military intelligence a few years ago the Pakistani army against anti-Pashtun tribes and turning the, because with us it is not entering the war to an end with a thousand killings and fighting.

Group III: Poverty and hunger, which hit the country where nearly 42 million people living below the poverty line, it is known that the average citizen does not find in the state meet as his basic needs such as housing, restaurant and treatment loses national affiliation of this country, which is commemorated in, and this poverty and destitution develop the underlying motives of the revolution, at best, at worst to accept any rule, even if a ruling Hindu.

Group IV: separatism which appeared runs in the disgruntled minority apart on race Punjabi acquirer on the bounties of the country, and the sole beneficiary of the survival of Pakistan as its identity present, there is Baluch claimants establish their own state have held conferences to express their feelings to secede, and there are immigrants from India who were Nearly half the population of Sindh, there are Pashtun claimants to return to the motherland Afghanistan, is no doubt that India's eternal foe, advances in this direction for the dismantling of the country and then swallow what is left of a Punjab and Sindh provinces.

What is left to Pakistan's survival factors:

Based on the foregoing, we can say: it was left to Pakistan's survival factors in light of this policy pursued by the heads of government where only military strength, and its security institutions, represented by ISI and the force under tyrannical rule of the Punjab regions of the sword began to fade and decay by turning the Pashtun ethnic group the forefront fighting the Taliban, and fought a war not only has the benefit of prestige, and dare people to the army, which was a sacred time soon, where you go three-quarters of

Pakistan's gross national product to service and maintain it, and history says that he did not enter the State's long-term war and emerged with a victorious, especially if he'd fought against the doctrine is a practice of guerrilla warfare based on attrition of physical, human and moral support to the other party. The other factor to stay - albeit a limited effect - the remaining is the Western support of the Christian state to prevent them from falling and tearing, but keep this factor depends on the survival of the "terrorists", the terrorists went gold with the presence of Pakistan from the map.

Erroneous equation:

BET Pakistani politicians in the Global War IV "war on terror" to stand with the crusade led by the United States, and they thought that they committed the lesser of two evils, because the alternative to stand by the crusade is to stand with the Mujahideen, and that means for Pakistan as they claim to return to an era in Pakistan stone, and stripping it of its nuclear power also threatened the Yankees, and the fact that marred the illusion that America has not been able to impose more economic blockade was imposed in one way or another to Pakistan before the atheist of September, and paper and play India at that time were excluded for having Pakistan nuclear deterrent.

Whatever the case did not generate the military minds of the ruling Pakistan in Islamabad, the consequences of this situation on the medium and long term, and may have been aware of - which I most likely - the consequences of this situation from a strategic point of presence on the world map of Pakistan, The Taliban and the Pashtun element in the component are mostly pm and strategic depth to Pakistan regardless of the outlook of the Pakistani state against Taliban rulers, I mean.

Yes bet Pakistanis to commit the lesser of two evils by the mistaken belief in terms of legitimacy, political, and stood with the Crusaders, even if confined to the thinking that what happened to the Soviets by the solution and United, which invaded Afghanistan is what will happen to the United States of America with a few days, knowing the nature of the people and the nation Afghan commission of the lesser of two evils in their eyes - with our rejection of it altogether - but what happened that the generals in Rawalpindi, under American pressure - which is not an object is impossible by the nature of things - they instructed the Pakistani army that has targeted Pakistan's tribal belt, and offers Al Qaeda and Taliban members as sacrifices to their gods of America, bringing the Pakistani army is in an enviable never the one hand, people kill the Pashtun tribal fever Pakistan's true throughout history, on the other hand weakens the tribes so that it can not be of assistance to Punjab in case of war with India is lurking by, and on the third alienate Pashtun element which is not revenge never forget, and on the fourth division and deepen the rift with the national governing Punjabi and influential in the State, of which Pakistani soldiers have an absolute majority of them, and on the fifth, which is of God by Muslims to revive the spirit of jihad in the children of tribal areas, and erosion of the State Pakistan's counter to the general public of people, and the emergence of jihadist groups Punjabi "Taliban Punjab" see fighting the Pakistani army duties, and this is what was to be not for the Pakistani campaign against the Mujahideen, and on the sixth drain the Pakistani military and state resources that they must maintain for a bitter conflict with India, and the depletion of army long war would inevitably lead to the disintegration of the country between the various constituent nationalities of the country.

Pakistan and the dismantling of the next:

The longevity of Pakistan default is nearing completion, has been accelerated by events, as is expected to accelerate the expiry, a disorder of security chaos Pakistan today, and Pakistan possess nuclear weapons, and Western calls for the division of Pakistan, India and a pagan alternative to Pakistan in the service of Western interests, all of this is pushing the partition of Pakistan, and proves that Pakistan is

dying, if not rectified by the wise in this country is, but things have gotten out of control and God knows this is a statement which stated:

Security chaos:

an important cause that will destroy the entity of Pakistan is the security chaos in Pakistan today because of the war against the mujahideen in the tribal areas, targeting everything Islamic in the country, this war, which is priced protected by the ruling junta led by Shiite Zardari motivated foreign and generals money motivated personality and sectarian, with the knowledge that most of the rulers of Pakistan along the history are Shiites, who represent approximately 10% of the population, but three of them are Ayub Khan and Zia ul-Haq and Nawaz Sharif, who probably think the people of the year, and I do not know how to grade the Sunnis in Pakistan on this which threaten their presence in that leaves no room for doubt!? And how forgot that the mujahideen in the tribal areas are the vanguard of fighting without them, and prevent Hindus from Swallowing!?

This fuels the chaos as well as protected by the above-mentioned companies killings rented Black Water which barely hit the market in Pakistan to fuel hatred and give rise to tendencies among the various ethnic components of Pakistan, making it easier to crack down on Pakistan's nuclear installations under international cover under the pretext of keeping it from falling into the hands of terrorists.

Pakistan to acquire nuclear weapons:

instead of the grace of this weapon against the Muslims in Pakistan, and Muslims in the East and the West, has become a factor in pay to dismantle and eliminate them, and tore to be shared among neighboring countries.

It is well known that the Western countries will not be satisfied for the Muslims to possess nuclear weapons, even if such a weapon, however, converts the slaves of the Cross, I was afraid it happens, however, the jihadists in one day and use it against them, and even India remains pagan and Jewish Israel safe from this danger, which does not keep in Weather If used, so you may pay the United States, India, Israel, Pakistan, to civil war or sectarian affiliation, spreading chaos in the creative boundaries, and then have a cover for interference in Pakistan and get their hands on nuclear weapons - if this were not done so - and this is the act under UN cover, as usual, and then lose Pakistan nuclear deterrent against India's superior physically, demographically and geographically, which means support for the ingestion of India and Punjab, a UN blessing, no doubt that the signs of this war and this mess is a list of visible, ensures its every affair headaches the Pakistani procedure.

This is what we do not need a lot of American forces in the absence of Pakistan's sovereignty on the soil of the homeland of Pakistan, where he sold the politicians and generals who fill their pockets more, no power and no strength except in Allah (La Hola Wala Qoat illa billa).

Already leaked press leaks here and there stating that the U.S. special forces and an Israeli special unit known as Unit (262) stands ready to intervene in Pakistan and the acquisition of nuclear weapons, or control in the event of chaos in the country, or in case the Islamists to power.

And the role of security companies in Pakistan on this matter too-distant future not only is Blackwater, which would hit the market in order to generate creative chaos in Pakistan, may give a pretext for Western intervention under UN cover, and then put Pakistan's nuclear weapons under the auspices of the Christian West to deprive Pakistan of this strategic deterrent, which prevents between them and be swallowed up by India.

The Western Call: Western nations seeks first and foremost the United States on the fragmented and the dismantling of Pakistan to reduce the risk of their presence on Western interests, Pakistan and neighboring Afghanistan today is in the eyes of the Christian West is a center for the rebirth of the global jihadist awakening This revival is the greatest danger threatening the American and Jewish interests in the world, The eyes of Western politicians, it also custodian of the Taliban movement that produced the al-Qaeda and the events of September 11, and its own schools, which are thousands of religious fertile field for the production of terrorists who are threatening the purity of Western civilization, and its northwest (Baluchistan) previous cruel still resistant to the west is a containment field attract each Those who seek to change and the advancement of the nation.

That is pushing Western countries to think about this today is that of division and disintegration in Western countries provide direct military intervention, which means that the consequences of disastrous opinion of the West some of the effects of the Nazarene in Iraq and Afghanistan, and protect them from internal crises and expenses of the greatest lethal economy, moreover, that the Western mentality in favor of dealing with more than one center of resolution for ease of command and control and the imposition of political will in accordance with the adage "divide and rule", and this explains the western division of the Arab and Islamic countries and the establishment of the homelands were not in one day with this entity recognized today.

And research centers and Strategic Studies, Bank has constantly pushing this trend to emerge from the crisis does not appear in the short or medium of any breakthrough, but it is from bad to worse to the Christian West, has raised these intentions are clearly a lot of Western thinkers, including for example, a strategic expert Anthony H. Cordesman and Colonel Ralph Peters, a retired U.S. military, which has served in the Armored Corps and the Division of Military Intelligence, which is still closely linked to research centers run by the Pentagon, it is worth noting that proposals for research centers to find Bank way in many cases, to implementation, it is to justify the mentality of many of the owners of command in the Pentagon and other U.S. decision-making positions in particular.

Indeed, he has been trading recently a new political map of the area prepared by the United States has appeared in which Pakistan is divided into three states, and may raise this map responses of anger and a wide circles in Pakistan.

India next alternative:

put India itself strongly to the Christian West as an alternative to Pakistan can count on in the region, "police area", has offered its services to the United States immediately after the 11 of September a letter sent by Prime Minister Vajpayee, the former President Bush, this approach does not come a vacuum in India aspires to be the strongest power broker in the region, they are seeking the BJP-led a radical right-wing extremist Hindus to a state grand, and spared no effort in instigating the strike Pakistan because of its direct support for jihadists in Kashmir, is no doubt that this approach finds well with the West, especially if we know that India will be a key player Bootnitha address the growing Islamic fundamentalism in the subcontinent, Hindi, and the parties directed to stand against China and aspirations, moreover, that India is a state that can play the same role played by the United States and the West in the fight against "terrorism jihad "of the Taliban and al-Qaeda in Afghanistan and Pakistan's tribal belt, is known historically that the people of India, both Hindus and Muslims, and Ceja were the vast majority who make up the British armies which were fighting with them, whether their war with Muslims or with members of the Christian religion, as they compete for interests , and I have fought the Muslim armies of intense fighting in Afghanistan, as history tells us that the biggest disaster suit in the British army in the history of wars in the land of the Afghans and the subcontinent, Hindi, was in the corridor leading to Jalalabad, Peshawar, killing nearly fifteen thousand British troops The bulk of them Indians,

were not spared from the massacre, only Dr. Braidun England, India is no doubt that the State can be an alternative to volatile Pakistan, but a substitute for the existence of Pakistan as a whole.

Scenario after Pakistan:

Difficult to predict the future and develop a scenario of what I am sure the situation will be after the demise of Pakistan and torn, but from reading events, analysis and knowledge of reality and what is being leaked in the Western media from time to time, we can imagine we might be closer to the truth and reality, so that the beneficial owners opinion, mind and matter, and the reader is familiar with and informed of the events might be construed, and God alone hired.

I have no doubt that the strength of Pakistan's Taliban movement in the growth and prosperity, and every day gaining strength to strength and adherents to their supporters, despite the relentless attacks on the Pakistani army renegade strongholds from time to time, which is important to be able to fill the void left by the disintegration of Pakistan, but the reality of the world And the largest of its potential, and its ability to continue to control the land, at least in current circumstances, it would remove the idea of maintaining the entity of Pakistan in its present form is not for nothing but to the new world order also said it did not leave the freedom of this, all they could do in that case is to maintain the Pashtun tribal belt, which by its nature Pashtuni loyal to the Taliban.

Based on the exclusion of Pakistan's Taliban movement from the equation The first images that can become the entity ...

After the dismantling of Pakistan is the following:

First: to swallow India Sindh and Punjab and the rest of Kashmir and they belong to the motherland, depending on the expression, and thus the Muslims in these regions nationals Hindi, who are subdued like the rest of the Muslims - we ask Almighty us kindness and Muslims - all with the blessing of the Christian West and encouragement for this step and this is after the demilitarization of Pakistan's nuclear potential, followed by the migration of millions of Pakistanis to the surrounding areas especially to the territory of Sarhad and Afghanistan.

Second: The regional chapter of Baluchistan and Sarhad of Pakistan, and the maintenance of Sindh and Punjab and the remaining portion of Kashmir on their experience as an independent state, but under the influence and domination of Hinduism, after stripping it of its military strength.

Third: the Baluchi truncated Pakistan and annex it to the other section Baluchi in Iran, and then create an independent Baluchi state.

Forth: Return Sarhad Pashtun territory to the motherland Afghanistan, where a lot of anxious people of this region to return to the motherland and the students rush Jihad Pakistan for Pakistan, and confined their activities in Afghanistan alone, the settlement could stop jihadist activity by the Western concept of mistaken right.

Fifth: the separation of Sarhad province from the rest of Pakistan and give the rule of the independent state to eliminate the Taliban movement spread over the country, and distracting people from Pakistan as an internal tribal wars between the pro-Taliban and opposition to the ruling, so preoccupied with the jihad wars side effects.

This political and geographical terms but in terms of practical field and de facto we can be summarized to the following:

First: to ignite sectarian war between the people of Pakistan, which Pakistan Seoul to become a several cantons are sorted by denomination or race, so that Shiites gather in the center of gravity and form a state backed by Iran is lurking, as well as Sunni Hanafi Al diobandiin, migrants from India in Karachi, and so on the rest of the sects and ethnic groups that are filled out by Pakistan, in this case will stimulate the work of the Mujahideen significantly, and was expanding into a very large movement to have, a disorder of security is no doubt in their favor at all levels.

Second: push India or at least recruit children to fight the Mujahideen and the Taliban to fight the pagan occupancy Hindi, and thus enter the conflict did not know him at least in the foreseeable future, to enable the West to find their way out of Afghanistan.

Third: the invasion of American and Western troops to Pakistan to fill the vacuum and this option is highly unlikely with what the United States to expand its embassy in Islamabad, and the presence of thousands of military experts, a situation recalled the start of the U.S. invasion of Vietnam, but that is different today, and the country, different discount will meet different, and economic hardship reeling by the United States today prevented from doing so, and experience has shown the inability of the United States to fight two wars at the same time, all of this and many others no doubt prevent it from taking such a step, unless the Americans gone and this is the question.

Fourth: The U.S. invasion and western limited to certain regions of Pakistan but an invasion regional Sarhad and Balochistan, where jihadist weight in these two regions, and in representing the strategic depth for Talban in Afghanistan, and this is also not in favor of the Americans, since it would act to foment jihad in the region, so it United States In doing so Kalmstagir in the fire, but its chances to hold such a step is contained not be excluded, as a last resort for the leadership of America, and God Almighty and to know.

One might ask where the people of this year, which is being plotted for them.!?

I say: As for the Sunnis in Pakistan as usual clapping for those who understand the throne sits in Islamabad, Rawalpindi and leads, regardless of who he is and what is religion, there's no strength except in Allah the Almighty, and we ask Almighty Allah to preserve them Muslims, plotted, and conclusion is Rushd It is difficult for them by the people of faith and jihad and humiliate the people of infidelity and atheism, Allah is close Responsive prayers.

His books are some of the gaps
